## Imagine — If every member gave just $30 to the ASC Foundation, we could...

- Triple our Research Seed Awards to young cytology professionals, or...
- Double the amount of our Advocacy Award and quadruple the number given, or...
- Give not just one, but two Cervical Cytology and HPV Partnership Research Awards, or...
- Provide Scholarships for twice as many new cytotechnologists to attend the ASC Annual Scientific Meeting, or...
- Double the number of cytotechnologists who receive Molecular Training Scholarships, or...
- Provide more curricular support to cytotechnology training programs, or...
- Fund a guest lecture at the Annual Scientific Meeting for 10 years.

### And if $30 can do all this, think of what $100 could do.....!!!

Visit cytopathology.org for more details.

## The ASC Online Auction Celebrates Our Global Cytology Community: Art and So Much More!

The ASC Online Auction is one of the Society's most beloved events. The Auction is more than just a fundraiser for the ASC Foundation advocacy activities – this Auction has allowed us to celebrate the humanities in medicine and the creativity of our members. **At least 50% of each sale will be used to fund Patient Advocacy programs supported by the ASC Foundation.**

This year we encouraged you to support our advocacy efforts by sharing your hometown pride with the cytology community and donate an item – local wines or specialty foods produced in your area; local art, pottery, jewelry or textiles; or a vacation home in a special place.

Because of your unwavering support, the upcoming Auction includes items such as beautiful photography, hand-crafted jewelry, hand-painted works of art, a resort vacation, and autographed cytology textbooks…all from ASC Members!

Take a peak at all the donated items on the ASC Web site and get ready to bid!

## AUCTION BIDDING BEGINS
## THURSDAY, OCTOBER 1, 2009!
