AMERICAN SOCIETY OF Cytopathology

2010-2011
BOARDS, COMMITTEES AND REPRESENTATIVES

Cell Biology Liaison Working Group

Charges:

1. Produce and update a page at the ASC Web site on "Cytopathology for Cancer Biologists," attracting cancer biologists to the ASC, and helping them to understand cancer cytology.
2. Represent ASC in at least one national cell biology meeting, serving as an "ambassador" for our field to attract cancer researchers to the ASC.
3. Produce a yearly summary article for *The ASC Bulletin* on Cell Biology research relevant to diagnostic morphologic features of cancer including a summary of important points relevant to Cytopathology from the yearly Cell Biology meeting.
4. Correspond with Cell Biology journal editors to request that authors integrate the morphology of their cancer cell model systems into their studies (the ASC Web site would be a resource).
5. Correspond with national research agencies (i.e. NIH) addressing funding needs for basic research related to Cytopathology.
6. Provide names of potential speakers for the ASC Annual Meeting.
7. In collaboration with the Scientific Program Committee, develop a basic molecular pathology course.
