2011-2012
BOARDS and COMMITTEES INITIATIVES

Educational Planning Committee *(Ad Hoc Committees)*

Description: This Committee reviews and suggests new items to be placed on website and periodically reviews of current educational items on site. The Committee is charged with investigating and evaluating other educational and teaching methodologies to meet the professional educational needs of the members of the Society.

Responsibilities

- Participate in the Continuing Education Oversight Committee
- Coordinate and prioritize the stream of e-learning components with the National Office staff.
- Generate and develop content for educational activities with an on-line component, making sure that some of the content has the possibility of CME and/or SAM.
- Consider web-based programs using virtual slides and offerings for MOCs and SAMs.
- Ensure that all programs meet ACCME requirements.
- Nominate colleagues for ASC Achievement Awards

2011-2012 Initiatives

- Update and monitor the Case Stuides and Virtual Slides in coordination with *The ASC Bulletin* Editor
- Reach out to Cytotechnology Program Directors and Fellowship Program directors to encourage submission of cases
- Develop new program ideas for online course (distance learing/on demand programming)
- Consider ideas such as large focused course that may migrant to the Scientific Program Committee to advance the Future of Cytology
- Review the online Bethesda Atlas and update as needed
